

Officially opening on Sept. 26, the ACC will debut 200,000 square feet of flexible space, creating a blank canvas for meeting professionals and providing the ultimate opportunity for event customization.

ACC North includes 100,000 square feet on the 100 level and an additional 100,000 square feet of carpeted, column-free space on the 200 level, offering maximum flexibility for events. With superior service access, direct access to an over 10,000 square foot outdoor balcony and state of the art pre-function and registration areas, the additional meeting space meets the ever growing and changing demands of exhibitors. Additionally, the outdoor balcony provides opportunities for outdoor breakout meeting space, food and beverage service, and sweeping panoramic views along Katella Avenue.

ACC North Details:

- Natural light on each level with blackout capabilities.
- Up to 35 rooms on the 200 level (over 3,400 linear feet of moveable walls) and up to 13 rooms on the 100 level (over 2,200 linear feet of moveable walls) brings the ACC total meeting room count to 99.
- ACC North meeting rooms are grouped into neighborhoods to allow for customizable climate and lighting controls.
- Rigging points on a 10'x10' spacing on each level and pre-function spaces are able to hang 2,000 lbs. every 10 feet in the event space of levels 100 and 200, and in the pre-function "lobby" space – that's over 2,100 points to hang!

The basic functional components of ACC North were arranged in an innovative fashion to create a unique meeting facility that is unrivalled in the industry by taking advantage of the existing site conditions and constantly searching for great solutions for meeting professionals that raise the bar for convention centers worldwide.

The ACC isn't the only evolution in Anaheim – four 4-star hotels are set to open around the ACC by 2021, along with additional entertainment and dining options. Anaheim visitors will love the sunny Southern California beaches, cheering on two professional sports teams and vibrant nightlife including the new House of Blues.

When you combine more than 1,000,000 square feet, with a true world class destination and your own imagination, you'll see that Anaheim and Orange County have everything you need to make anything possible.
